The Key to Better Business: 2015 Operating Performance and Compensation Survey

Better business performance starts with measuring key financial indicators and comparing where you are in relation to similar businesses. For a reasonably small investment of your time, AOPA's 2015 Operating Performance and Compensation Survey will provide the data you need to develop specific strategies to gauge and improve the health of your business.

If you've ever wondered if your employees are generating enough sales, or how your spending on materials, advertising, or other expenses compares with similar companies, you will want to participate in the 2015 Operating Performance and Compensation Survey, mailed to members May 1.

The survey takes about 60 minutes to complete and can be returned by fax, or completed online at www.aopa-survey.com. The online form has a "save and return" capability which allows you to complete the survey in multiple sittings, if needed. You may also submit your raw data to Industry Insights and they will enter it for you.

AOPA members who participate in the survey receive:

1. **FREE** customized Company Performance Report, comparing your organization with others of similar size and location. (*A private consultant would charge hundreds of dollars for such a report.*)
2. **FREE** copies of the two published reports: 2015 Operating Performance Report and 2015 Compensation Report – valued at \$570.
3. **FREE** Mastering Medicare Webcast series – a \$693 value. You or your colleagues can earn 13.5 CE credits when scoring 80% or higher on the webcast quizzes.

It's hard to improve if you don't know where you are starting from.
