Proof of Delivery Requirements: AOPA's Efforts Pay Dividends

As you may recall, last year the four Durable Medical Equipment Medicare Administrative Contractors (DME MAC) released a clarification on the type of information which must be included on a valid Proof of Delivery (POD). The DME MACs stated that the inclusion of the official L-code descriptor, which had been the accepted norm for years, was not sufficient enough and that suppliers/providers had to include narrative descriptions and/or manufacturer information (serial number, part number, model number, manufacturer name, brand name, etc.). As a result of this sudden shift in policy numerous providers/suppliers began to have their claims denied due to invalid PODs, which were valid prior to the DME MAC clarification.

AOPA challenged the excessive specificity of that new proof of delivery policy and the problems it posed for O&P patient care providers almost immediately and [sent a letter to CMS' Laurence Wilson, Director of Chronic Care Policy Group and Dr. Shantanu Agrawal, CMS' Deputy Administrator and Director of Center for Program Integrity](#). AOPA's letter argued that only FDA received authority from Congress to require serial numbers and other unique device identifiers, and that CMS could not enforce such a 'de facto' serial number requirement in the absence of explicit Congressional authority. AOPA also took the opportunity to address the issue of the new POD requirements with the [comments submitted in regards to the Draft Lower Limb Prostheses Policy](#) released in July 2015.

All of this work has paid off, as AOPA has recently learned that CMS has reversed course and will now accept the official L-code descriptors on PODs. Effective March 4, 2016 the Program Integrity Manual, specifically Chapter 4; Section 4.26.1- Proof of Delivery and Delivery Methods, has been updated and includes the following statement:

The long description of the HCPCS code, for example, may be used as a means to provide a detailed description of the item being delivered; though suppliers are encouraged to include as much information as necessary to adequately describe the delivered item.

You may view the official Change Request published by CMS [here](#) and the revised Program Integrity Manual [here](#).

While the complete PIM indicates that “suppliers are encouraged to include as much information as necessary to adequately describe the delivered item,” PODs that include the complete HCPCS code descriptors can no longer be considered invalid resulting in a denial of the claim.

AOPA is very pleased to see a direct result of its communication efforts with top CMS officials regarding POD requirements and will continue to advocate for the equitable treatment of its members.

AOPA Announces Requests for Proposals for Pilot Grants

The American Orthotic & Prosthetic Association is proud to announce a [Request for Pilot Grant Proposals](#) in sixteen potential areas of Orthotic and Prosthetic (O&P) research including an open topic. For 2016-2017 the association is seeking proposals for one-time grants in amounts up to \$15,000 for one year. The leadership of AOPA, working in conjunction with the Center for Orthotic and Prosthetic Learning and Outcomes/Evidence-Based Practice (COPL) and its Board of Directors comprised of representatives from eight leading O&P organizations recognizes that there is a modest amount of original evidence-based or outcomes research in orthotics and prosthetics. Consequently, AOPA is interested in funding original pilot research that will lead to larger trials that may qualify for government or other research funding support in the following areas:

Areas for submission are:

- a) Demonstration of multi-site coordination of P&O clinical outcomes data collection with emphasis on data consistency and quality
- b) Quality of Life, Wellness, Patient Satisfaction and/or Outcomes Studies of Patients Who Have Received O&P Care vs. Those Who Have Not
- c) L0631 bracing—Performance and Outcomes Data That Differentiate Patient Results from What Could be Achieved with an OTS Orthosis that is Provided without any Fitting, Trimming or Clinical Care?
- d) TLSO/LSO: Utilization and comparative effectiveness of TLSO/LSO. Pre and post-operative use
- e) AFO/KAFO: Utilization and comparative effectiveness of custom vs. OTS AFOs and KAFOs. Investigation and analyses of patients who receive custom orthosis subsequent to OTS AFO fitting.
- f) Microprocessor Controlled Knee and Ankle Joints – Safety Benefits for Non-Variable Cadence (K-1, K-2) Ambulators
- g) Does Restricted Access for K-1 and K-2 to Hydraulic Controls Adversely Impact Patient Safety?
- h) Efficacy of custom vs. OTS relating to clinical outcome, analyses of providers credential
- i) Functional Impacts of Vacuum-Assisted Socket Suspension Systems
- j) Outcomes Measures, Evaluation of Clinical Benefit, and Quality of Life Metrics Related to Orthotic Management (Note: Submissions Should be Pathology and/or Condition Appropriate, e.g. Stroke, Cerebral Palsy, Multiple Sclerosis, Polio, OA)
- k) Orthotic Management of Osteoarthritis
- l) Alignment (tuning) of Ankle Foot Orthoses in the Cerebral Palsy population, measured outcome.
- m) Stance Control Knee Ankle Foot Orthoses, Clinical Application and Measured Outcome.
- n) Socket Interface: Methods for Measuring Quality of Socket Fit and Alignment
- o) Sockets: Methods for Measuring Proper Socket Fit and Alignment
- p) Open Topics – Beyond the Above Priorities, Top Quality Clinical O&P Research Topics Considered

AOPA and COPL will give preference to grants that address evidence-based clinical application in orthotics and prosthetics. Please post this RFP and share it with your colleagues. **The deadline for proposals is April 30, 2016.** [Read the full eligibility and application process.](#)

Medicare Spending on Prosthetics

What has happened to Medicare's Spending on Prosthetics since 2010?

AOPA has analyzed the data, and the picture is clear. Medicare spend 15% less in 2014 than in 2010 on prosthetics. Medicare spending on advanced prosthetics has trended down 40% while spending on older technologies has trended up - 35%. Overall spending has decreased by 14% since 2010.

Year	All Prosthetic Spending	Year	All Prosthetic Spending
2005	\$607,797,189	2010	\$770,462,739

**AOPA National Assembly and New England Chapter Meeting
John B. Hynes Veterans Memorial Convention Center in Boston, MA
September 8-11, 2016**

The 2016 Planning Committee is seeking high-quality education presentations for the combined 99th Annual AOPA National Assembly and New England Academy Chapter Meeting to be held September 8-11, 2016 at the Hynes Convention Center in downtown Boston, MA.

Your submissions, based on sound research and strong empirical data, will set the stage for a broad curriculum of highly valued clinical and scientific offerings at the 2016 National Meeting. All free paper abstracts for the 2016 AOPA National Assembly must be submitted electronically. Abstracts submitted by e-mail or fax will not be considered. All abstracts will be considered for both podium and poster presentations. The review committee will grade each submission via a blind review process, based on the criteria below and reach a decision regarding acceptance of abstracts.

- Relevance, level of interest in topic
- Quality of Scientific Content
- Quality of Clinical Content

Submission Deadline – The submission deadline is March 31, 2016.

Clinical Free Papers – Those wishing to present an Orthotic, Prosthetic or Pedorthic Free Paper should [submit here](#) to have their paper considered for presentation at the 2016 National Meeting. The top scoring papers will compete for the prestigious Thranhardt Award.

Technician Program – If you would like your Technical presentation considered for the Technical Education Track, please [submit your paper here](#). The planning committee is specifically looking for fabrication techniques to be presented in the form of a “cooking show” style demonstration. Please contact us with questions assembly@aopanet.org or 571-431-0808.

Business Education Program – Please [submit your business education paper here](#). The top papers will be considered for the prestigious Sam E. Hamontree, CP (E) Business Education Award.

Symposia – If you are interested in organizing a Symposium, then please [submit here](#). Scientific Symposia should present thematically related research addressing significant problems or controversies in Orthotics, Prosthetics or Pedorthics. The symposium should bring together one or more of the world's leading researchers to present current developments and planned research directions. Where appropriate, symposium should present differing points of view on a particular topic.

Student/Resident Poster Submission: AOPA invites students and residents to present orthotic/prosthetic research findings or a particular case study via a poster presentation. When students and/or residents submit an abstract for a poster, they are entered to win one of two prestigious awards--The Otto and Lucille Becker Award will be presented for the best orthotic abstract submitted and the Edwin and Kathryn Arbogast Award for the best prosthetic abstract submitted by a qualifying student or resident.

- ✓ The poster must be exhibited and presented at the AOPA National Assembly for the award recipient to receive the prize. The winners of the two scientific poster awards will be published in the O&P Almanac.
- ✓ The winners will receive a \$500 cash award, registration to the show, coach-class airfare to the National Assembly and three nights hotel. To qualify to present a poster in this category and eligible for consideration for this award, the main author must be a student (baccalaureate or masters level) or a resident at a qualified patient care facility.
- ✓ Abstracts will not be considered for either award if they have been previously presented, published, or are currently submitted with pending decision on acceptance elsewhere.
- ✓ These awards have been made possible by a special endowment by Becker Orthopedic and WillowWood.
- ✓ The Award Winner's associated school will also be honored with an award.

Please [submit your poster paper here](#).
